MASSACRE OF JEWS

Waylaid by Peasants For Purposes of Robbery.

WERE CLUBBED TO DEATH

Checking Fate of a Party of Russian Jews that Had Started to Cross the Austrian Frontier for the United States.

Budapest, July 20.—The newspapers say that thirty-seven Russian Jews started to cross the Austrian frontier at night without passports, their destination being America. They were waylaid by peasants in the village of Zvonitz for the purpose of robbery. Twenty-five, including women and children, were clubbed to death.

The frontier guards reached the scene in time to prevent the robbery of the travelers and to arrest several of the murderers.

DISCREPANCY OF \$39,000.

Bank Examiner Takes Charge of Gallatin, Tenn., Bank.

Gallatin, Tenn., July 20.—United States Bank Examiner M. E. Patterson has taken charge of the Peoples National bank, of this place, a discrepancy of \$39,000 having been found in the accounts.

The discovery was made by the assistant cashier during the absence of Cashier F. G. Harris, who is ill at the home of his father-in-law, Judge William Hall. The latter, in a statement made for his son-in-law, asserts that Harris is straight with the bank and that, but for his illness, there would have been no trouble.

The bank has a capital of \$50,000, undivided profits of \$14,500, and deposits aggregating \$140,000. Of the shortage, \$29,000 is said to be in unaccounted for discount paper, \$7,000 in ordinary accounts, and \$3,000 in unidentified entries. The discounts, unless they should be forgeries, will not represent a loss to the bank, the holders suffering, and it is therefore probable that actual loss to stockholders will not exceed \$10,000.

It is expected that the bank will soon resume business. Other banks in the town were prepared for emergencies but there were no indications of a run.

SAYS ORCHARD WILL HANG.

Former Attorney Bagley, of Idaho, on Haywood Case.

New York, July 20.—"There is just one thing absolutely certain about the Haywood case," said John A. Bagley, attorney general of Idaho, in 1902-1904, who is in this city. "As that is, no matter what may happen to Haywood and his associates in the Miners' association, Harry Orchard, the self-confessed assassin of Governor Steunenberg, will be hanged."

"Orchard has not been promised immunity in Idaho, and even if he were extended executive clemency, he has confessed to thirteen murders outside the state of which he could be convicted and from punishment which Idaho could not absolve him."

"How the Haywood trial will end, no one knows. All the people want—and in this they are a unit—is that exact justice be done."

Young Man Drowned in River.

Columbus, Ga., July 20.—Charles Brown, a young man of Columbus, was drowned in the Chattahoochee river north of Columbus Thursday. He had gone in bathing, and either got beyond his depth or was swept away by the current. His clothing was shortly afterwards found on the bank of the stream. Search for his body is now in progress.

Cruse Is Dying.

Boston, July 20.—With the exception of Midshipman Cruse, the sailors injured by the accident on the battleship Georgia Monday will probably all survive, was the opinion given by Dr. P. T. Desse, of Chelsea naval hospital, where the twelve men are under treatment.

LAMANA MURDER CASE.

Italians Are Found Guilty Without Capital Punishment.

Hahnville, La., July 20.—A verdict of guilty without capital punishment was returned in the case of Campisciano, Mrs. Campisciano, Tony Costa and Frank Gendusa, the Italians accused of kidnapping and murdering the little Lamana boy.

The verdict was returned just before dark Thursday after the jury had been out forty-five minutes, and at the close of a four days' trial.

The jury declared that their verdict was unanimous, and their court adjourned.

The state did not succeed in proving that any of the accused committed the actual murder. Campisciano and his wife shielded the kidnapers from capture, even throwing a party of police off the trail when they were within a short distance of the boy's hiding place, about an hour before his murder.

Testifying in his own behalf Campisciano did not deny this, but claimed that he had been forced by threats of death to act as he did.

Colangelo Gendusa was the go-between for the ransom money, and Costa, according to witnesses, stole the boy and gave him to the kidnapers.

Campisciano testified that the actual murderers were Angelo Incarnatera, Tony Gendusa, Stefano Montre and Carlo Luchesi. These four have not been captured.

Campisciano also implicated in the plot Leonardo Gobbia and Nicolina, Gobbia's sister, both of whom will be tried next week.

LYNCHING WAS AVERTED.

Prompt Action of Governor Blanchard Saved Italians' Lives.

New Orleans, July 20.—With the prompt action of Friday of a posse of 300 men who had formed at Gretna, La., to lynch three of the Italians convicted of the Lamana murder an acute crisis in the state and order of this state was safely passed.

This posse was the last of several small mobs which formed at widely separated points and talked about hanging the Italians if favorable opportunity presented.

Probably Governor Blanchard's prompt action in ordering out two companies of state militia within two hours after the verdict, saved the Italians' lives.

The soldiers arrived at the Hahnville jail, where the prisoners were confined, in time to forestall plans which were on foot to take possession from New Orleans either by boat, wagon, special train or automobiles.

Nearly one hundred soldiers guarded the lonely and exposed Hahnville jail Friday, and it may be necessary to keep them on duty there until the Italians are removed to a safer place. The prisoners must first be sentenced.

More Troops Sent.

New Orleans, July 20.—Two more commands of Louisiana troops were sent Friday morning from here to Hahnville, St. Charles parish, where a jury on Thursday brought in a verdict of guilty without capital punishment in the case of the four Italians charged with the murder of little Walter Lamana, who was kidnapped here early in June. One command consisted of a battery of field artillery with rapid-fire guns and the other a company of infantry. There is no apprehension of immediate danger, but in order to make less arduous the work of the two companies of infantry already at Hahnville, the additional troops were ordered to the St. Charles parish courthouse to aid in guarding the prisoners.

Lightning Set Fire to Barn.

Marshallville, Ga., July 20.—Lightning set fire to the large barn of J. B. Jones, a prominent planter, near here, Tuesday afternoon, and burned it to the ground. Two horses, ten hogs as well as quite an amount of provender were destroyed. Mr. Jones will be remembered as the captor of Sam Hose, for whom a large reward was offered. This is quite a loss, but Mr. Jones has a fine peach crop to offset it.

TO NAME OFFICERS

Governor Beckham Will Appoint Louisville Officials.

MANY REFORMS TO FOLLOW

Culmination of Political Revolution Which Has Rarely Been Paralleled in Cities of First Class in the United States.

Louisville, Ky., July 20.—With the appointment by Governor Beckham of complete new boards of commissioners and aldermen, in a day or two the city of Louisville, Ky., will have reached the culmination of a political revolution which in extent and effects has only been paralleled by one or two other cities of the first class in the history of the United States.

The upheaval is the result of a recent decision of the Kentucky court of appeals overturning the municipal election of 1905. On the face of the returns as counted in election day, the Democratic ticket for city and county officers, Jefferson county, has been declared elected, but a contest in the courts was instituted by representatives of the fusion ticket, the only one in the field against the Democrats.

On the showing made, the court of appeals in the final hearing of the case decided that "gross frauds" in the matter of repeating, illegal voting, intimidation of voters and falsification of the count had prevailed to such an extent as to render the election invalid. The legal effect of the finding was as though no election had been held, and under the terms of the court's mandate, it became incumbent on Governor Beckham to appoint boards of council and aldermen and a mayor for the city of Louisville and a county judge for Jefferson county.

The mayor and county judge were, under the law, empowered to fill all the remaining county and city offices made vacant by the decision. All the appointees under the decision hold office until a special election is held in November of this year to fill the offices until 1909.

One of the results thus far of the changes has been the putting of the lid down tight of saloons and gambling, and the general exodus of small gamblers and tenderloin habitués and "suspects" of all kinds. Last Sunday Louisville was absolutely "dry" from midnight Saturday until 5 a. m. Monday.

DOUBLE TRAGEDY IN SALOON.

Two Men Were Fatally Shot; Another Seriously Wounded.

Lexington, Ky., July 20.—A special from Sergeant Letcher county, Thursday, reports a double tragedy in a saloon at Pound Gap, on the Kentucky-Virginia line. Two men were fatally shot and will die, while a third was seriously wounded.

Will Robinson and John Centers, between whom an old grudge existed, met, and Centers opened fire. Several shots were exchanged and Centers fell, mortally wounded. Half an hour later "Babe" Stewart and Isaac Bentley met and began shooting. Two shots had been fired by each when Bentley fell. Stewart was wounded.

Will Pardon Mrs. Birdsong.

Jackson, Miss., July 20.—Governor Vardaman Thursday gave a hearing to the petitions for and against Mrs. Annie Birdsong, both sides being represented by attorneys. After the hearing was concluded, the governor announced that he would pardon Mrs. Birdsong. She was sentenced to five years in the penitentiary at the recent term of the Copiah circuit court for the killing of Dr. Butler, in Lawrence county. The petition for her pardon was largely signed.

KOREAN EMPEROR QUILTS

Dramatic Scene When Ministers Request His Abdication.

Seoul, July 20.—It is reported that a most dramatic scene occurred at the Palace Thursday when the ministers, headed by Premier Yi Yong, appeared before his majesty and made the emperor's final representation in urging the emperor's abdication.

His majesty was in a high state of excitement, but the premier in an humble but firm tone dwelt at length upon want of precaution and prudence of the emperor's policies hitherto, especially in diplomatic affairs, whereby he was endangering the safety of the nation. The premier enumerated the facts of his majesty's duplicities which culminated in the dispatch of a deputation to the Hague peace conference and forcibly reasoned the uselessness of the emperor's disavowal of his relation with the Hague affair.

Unable to successfully combat the logic of the premier's representation, the emperor sought a last refuge in the council of elder statesmen, doubtless anticipating their sympathies.

The council immediately convened. Four elders responded and appeared before his majesty at 1 o'clock Friday morning. The emperor's disappointment and surprise was boundless when they unanimously agreed with the minister's advice. His majesty's mind was finally made up and he consented to the draft of an imperial rescript announcing his abdication, which was placed before him for his signature.

The emperor's condition was indescribable. Greatly agitated and perturbed he signed the document and the seal was affixed in impressive silence. A suppressed sigh from the emperor was the only sound which broke the death-like hush that reigned throughout the memorable scene.

Populace Is Enraged.

Seoul, July 20.—Enraged crowds are assembled at various points all through the city and inflammatory documents against the Japanese are being freely distributed, giving rise to a forlorn hope that some change is about to begin.

Extraordinary police precautions are being taken throughout the city.

PHENIX CITY ALSO AFFECTED.

Prohibition for Georgia Will Make Two Alabama Towns Dry.

Columbus, Ga., July 20.—What might be termed the Alabama consequences of the proposed adoption of state prohibition by Georgia continue to grow.

A few days ago an Alabama law, ten years old, was resurrected providing that when Columbus goes dry, prohibition shall also be in effect in Girard, Ala., just across the Chattahoochee river from Columbus.

There is another Alabama city just across the line from Columbus, Phenix City, with 5,000 inhabitants, and the statutes have been again searched and another law dug out, providing that when Columbus and Girard go dry, Phenix City shall also join the prohibition ranks.

This act was passed by the Alabama legislature in 1897. The chain of consequences is rather interesting, the life of Girard saloons depending upon the prohibition status in Columbus, a city in another state, and the "dryness" or "wetness" of Phenix City being governed by the liquor status in two other cities, one in Georgia and one in Alabama.

Polo Tournament Begins.

Chicago, July 20.—Polo enthusiasts and society folk gathered in force at Lake Forest Friday for the opening match of the championship polo tournament between the Buffalo and Owentia teams in the junior series on the Owentia Club grounds. The tournament will continue until July 27. Some of the best known polo players in the country will take part in the tournament.

Columbia, S. C., July 20.—It is reported here that an express package of \$10,000 has been lost at the Florence, S. C., office. Superintendent Dimas, of the Pinkertons, and three agents have been here working on the case for several days.

DAMAGE FROM STORM

Wind and Rain Wrought Havoc in Missouri.

MANY HOUSES ARE WRECKED

Cloudburst Accompanied Tornado-Like Wind and Houses Were Washed From Their Foundations—Miraculous Escape From Death.

St. Joseph, Mo., July 20.—A tornado and tremendous rain did heavy damage in St. Joseph and vicinity Thursday night. Houses were wrecked, street railway tracks torn out and cellars flooded.

The family of Daniel Riordan, one mile east of the city, had a miraculous escape from death. The residence, two stories in height, was torn from the foundation and completely demolished. Riordan and his wife and three children had taken refuge in the basement. They were buried under the debris, but the wind lifted the house bodily from the foundation and none of the heavy timbers fell on them.

Scores of houses were washed from their foundations in the city by the rain which amounted to a cloudburst.

In Brookdale, a suburb, a score of families were driven from their houses by water. A dozen residences were struck by lightning, but no fatalities are reported.

The loss to the growing crops will be heavy.

Truck Gardens Damaged.

Kansas City, July 20.—Further heavy rains north of here last night caused the Missouri river at Kansas City to rise a little higher. As a result, the cellars in two dozen wholesale houses in the west bottoms were partially flooded.

Stocks had been removed to places of safety and the damage in this direction was slight.

Truck gardens at Quindaro on the outskirts of Kansas City, along the Missouri river, have been flooded, causing damage estimated at \$30,000, and several truck farmers with their families are moving to higher places.

The stage of the Missouri river on Friday morning was 23 feet. If there are no further rains in the west and northwest for several days the Missouri will still be low enough to take care of flood waters without danger of a serious overflow, Mr. Connor, the weather observer, says.

The Kaw is rising slowly also.

COMPARATIVE STATEMENT.

Strength of Great Powers in Comparative First-Class Warships.

London, July 20.—A Parliamentary return has just been issued showing the comparative strength of the great powers in completed first-class warships less than 25 years old, and armored cruisers less than 20 years on June 15.

Great Britain has 53 battleships, of which eighteen are considered of obsolete type. The United States has eighteen battleships, of which four are considered obsolete; France twenty, with six obsolete; Germany with nine obsolete and Japan eleven, with two obsolete.

Of cruisers, Great Britain has thirty-two; the United States twelve; France eighteen; Germany six and Japan ten.

Athens Man Commits Suicide.

Athens, Ga., July 20.—Arthur Pittman, aged about 40 years, committed suicide at his home at noon Thursday. He shot himself through the heart with a parlor rifle. No cause except ill health is known for the act. He leaves a wife, his father and a brother being residents of Texas.

Sandown Park Races.

London, July 20.—The Eclipse stakes, 1,000 sovereigns, distance about a mile and a quarter, for three-year-olds run at Sandown park Friday, were won by W. B. Peartree's chestnut colt Lally. W. Bam's Sanday was second and Lord Rosebery's Resolute third. Seven horses started. Lally was a favorite.

ELKS FISHING CLUB ARE AGAIN HOME

Had a Delightful Cruise of Two Weeks On Gulf Coast.

QUITE AN INTERESTING DIARY

Secured from One of the Members, and Published by Consent—Visit to St. Petersburg Proved Pleasant. A Successful Trip.

Old King Cole, whom we read about in nursery rhyme, was not in it when it came to merriment with the sextette of good fellows who termed themselves the Elks' Fishing Club, who set sail at Cedar Key Friday, July 5, for a cruise down the West Coast.

This party, which comprised Postmaster L. C. Lynch, E. A. O'Neill, Jos. A. Ward, P. T. McCormick, Benj. F. Miller and Captain J. W. Blanding, returned to the city early Saturday morning after a most delightful cruise, and one of the party has furnished the following from his diary:

"Left Cedar Key Friday, July 5, in steamer Ocean Queen, with an abundance of everything required to make a fishing trip and cruise a success, comfort and proper nourishment of the good life.

"Saturday was spent in gathering and setting clam and stone crabs off the coast of St. Petersburg, and it was then the first indication of what an enormous quantity of crabs had brought with them.

"On Sunday we proceeded to St. Petersburg, Port English, St. Petersburg Beach and Bayport. At the latter place the fishing was excellent, and having filled that part of the boat and caught by canned crabs, etc., with a choice lot of the same, we set sail for Clearwater, Manatee River and Sarasota.

"What a delightful struggle with a mosquito net!—and how the mosquitoes were—the first step was to get to St. Petersburg, which was accomplished at a most opportune time. The party was very much impressed with the beautiful little city, snugly nestled on the shores of Tampa Bay, and the hospitality and attention shown by some of the prominent citizens of the city, among these to mention the friends of the party are: Mayor Walter Powell, Postmaster Hans Christian Andersen, Avery, and City Engineer, the latter being a former resident of Gainesville.

"The party then went to St. Petersburg and made a few stops for fishing and then returned to St. Petersburg, where they were well pleased and comfortable, contemplating a more extended stay next year."

posts at Sarasota, and when they weighed anchor, some good friends on the shore told them that they had better skate for some place further north. "Why," said he, "the mosquitoes down about Charlotte Harbor are carrying an extra set of drills."

"To hear Mr. Lynch tell about their experience at Sarasota was really pitiful. He said:

"When we retired, we pulled some mosquito bars over us, but the skeets carried the bar away and buried it. Then we tried cheese cloth, and they simply ate that up like a race horse coming down the stretch. Then we got under the tarpaulin and spliced it down. Blame you, if the skeets didn't get under the boat and drive their bills through the copper hull. The next morning before we could weigh anchor we had to drive them away with oars and clubs. We laid off Maximo Point last night and had the first night's rest for three days."

The Doctor Away from Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp, colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all druggists.

A Baptist Revival.

The Baptists of the H. L. Beville neighborhood have been holding a revival service at the Stokes school-house for the past few days, which was closed Friday.

The meeting has been conducted under direction of Rev. Mr. Proctor of Lake Butler, and has proved quite a success.

There will be another meeting the third Sunday in August, when Mr. Proctor will assist the people of that section in organizing a Baptist church.

Bad Burn Quickly Healed.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John street, Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve always the pain of a burn almost instantly. It is for sale by all druggists.

Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. The regular weekly debate of the teachers attending the Summer Normal was held at the auditorium Friday evening, and was well attended.

The question for debate upon this occasion was, "Resolved, That a Bachelor Over Twenty-Five Years of Age Should Pay a Tax," and was well presented on both the affirmative and negative. In fact, it was so well presented, and so intricate and well taken were the points, that the judges compromised and would not render a decision.

An ordinance requiring property owners to lay lateral pipes to connect with the sewers was read the first and second times and ordered engrossed, after which the Council adjourned until Monday afternoon at 2:30 o'clock.

SEASIDE ACCESS TO OCEAN.

As the Intracoastal canal progresses the South and the Central West are taking more interest in the possibility of foreign trade. The West Coast, however, seems to be the ocean, and the East Coast, the sea. There is a disposition to look upon the use of waterways as a determining factor, not only in the rate at which shipments can be made into foreign markets, but also as a means of determining the value of the exportable surplus of the country with foreign countries, and as a means of determining the value of the exportable surplus of the country with foreign countries, and as a means of determining the value of the exportable surplus of the country with foreign countries.

It is not that the price obtained for the export surplus from the value of the surplus is essentially sound.

For instance, were no surplus exported with cereals as to the value of our crops, the price of the surplus would be very much lower.

On the contrary, as is likely this surplus will need more than the price will be corresponding.

The domestic price is determined in both the maximum and minimum by what the foreign market needs to buy of our surplus.

The buying of this on the proper side of the Central West is the same as the buying of the Erie canal in its relation to the railroads on grain car.

The Atlantic seaboard. The surplus of the surplus can be determined by the cost of getting it there.

GLOOMY OUTLOOK.

At the recent election in Perry the advocates of a dispensary elected their candidate for mayor and a majority of the board of aldermen. Editor Pound of The Taylor County Herald, however, is bitterly opposed to the town engaging in the liquor business, and says:

"While the campaign was waged on the dispensary question we do not believe that feature of the question is at all probable now, as the license system is so much easier of accomplishment. The license on the business here has always been \$5,000, which we do not believe the new council will materially lessen."

Then, commenting on the situation in Georgia, Editor Pound continues:

"In view of the probable passage of the Georgia prohibition law and the position that Perry and Taylor county occupies on the liquor question, this town is destined soon to come into public notice beyond the previous expectations of anyone. Being the only 'wet' county at all contiguous to Georgia between Jacksonville and Pensacola, and with its railroad connections to all parts of both States, places Perry in a position to attract the Georgia dealers who may wish to continue the business and do a mail-order business. The only thing we see in the way now of Perry having 'greatness thrust upon her' is a divided sentiment among the 'wet' people, some of whom adhere to the dispensary plan as against the open saloon and who maintain that the license should be raised so high that the 'official town tank' alone should reap the riches to be derived. Deliver us from the state that would follow. We would prefer a dozen open saloons or even 'blind tigers' to such. But no matter which horn of the dilemma we take it seems almost inevitable now that for a time at least Perry is destined to a degree of notoriety seldom attained by a town at so little effort."

WILL PROSECUTE L'ENGLE.

In a "Card to the Public" in The Tampa Tribune of July 19th Editor Stovall says:

"As has been previously announced in The Tribune, criminal prosecutions will be instituted against Claude L'Engle, editor of The Tallahassee Sun, and against J. H. Reese, whose name appears as the author of the article in the last issue of The Sun, alleging a conspiracy on the part of Judge Stewart, of Manatee county, Col. Peter O. Knight and myself to have L'Engle removed from Tallahassee during the recent session of the Legislature. In pursuance of this intention, Mr. Knight and myself yesterday secured the services of Mr. John F. Wall and Mr. C. C. Whitaker of this city to assist in the prosecution of these persons for criminal libel, and affidavits were duly made before County Solicitor Raney upon which to base information for this offense. Other attorneys in Tampa and other cities of the State have also offered their services to us in this matter."

"The case will not be made the subject of further newspaper controversy on the part of The Tribune, but will be attended to in the proper manner by the criminal court of record of this county."

W. F. STOVALL.

FROM THE PAGES
OF FLORIDA PAPERS.

It Will Be Double Dammed.

"They are planning to put a big dam in the Everglades. No use to bother. The man who has to pay the taxes will 'dam' it all right.—Lake Butler Star.

Editor Powell Nauseated.

The big Claude L'Engle sensational bubble, which was due to engulf our fair State in a perfect frenzy of sensation, "busted" on schedule time, July 13th. At just what hour or minute the dread catastrophe happened we are unable to determine, although we expected some super-human demonstration like an earthquake, sun standing still, etc. The bubble was filled with nauseating odors, which, thanks to a stiff ocean breeze and alert board of health, will slowly drift outward on the still blue sea of oblivion.—Lake Butler Star.

The Price of Lumber.

The Georgia-Florida Lumber Association at its meeting at Atlantic Beach Monday proposed to carry resolutions reducing the output of the various mills of the association on the ground that the mill men are not receiving adequate pay for their product. In other words the association will force higher prices by reducing the output of lumber. The present prices of lumber is now so high that the man of limited capital cannot afford to attempt the erection of a decent home for himself and family. If lumber goes any higher the building will grow less as only the rich can afford to erect a building or own a home.—Titusville Star.

A Different Type of Man.

In this L'Engle conspiracy matter, as stated elsewhere by The Record, we know nothing of the Tampa end of the affair, or whether Peter O. Knight or Wallace Stovall made any effort to control the Manatee county court by wire or otherwise, but if they did, such never reached the ears or sight of Judge Stewart, and had no bearing whatever on his action in the L'Engle matter. Judge Stewart did his duty as he saw it, without fear or favor from anyone.

Those of us who know Judge Stewart, and he is one of The Record's warmest personal friends, know him to be a different type of a man from this. His actions on the bench cannot be swayed by either influence or money. He is a man of the highest honor and integrity. In his daily walk of life, whether on the bench or off, he stands always for the right, and is governed by his own conscience as to what is right.

He has served Manatee county as county judge for nearly twelve years, and his every act has marked him as a man of character and honor. Few men can, by their uprightness and faithfulness to duty, endear themselves to the people so closely that with one voice they re-elect them to office without opposition. But the record of Judge Stewart as county judge was such that the people thus approved his official acts at the last election.

Judge Stewart, as in all cases, did his duty in the L'Engle matter as he saw it and in accordance with law, free from any influence or taint of conspiracy.—Manatee Record.

Yearning, with no object in view, is bound to grow monotonous.

The New York Racket, Phifer Bros., has a change of advertisement in this issue, to which the attention of our readers is called. This is one of the leading firms of its kind in the State, and has built up a fine trade by reason of the fact that they do what they say—in other words, every article is just as represented, and the buying public have found it out.

Attention is called to the change of advertisement of Phifer Bros., bank, which appears in this issue. This enterprising firm quotes as the capital stock of the firm, "Personal Responsibility, \$150,000," which is quite clever, as well as true. This

firm does a general banking business, and pays four per cent interest on savings accounts.

The G. W. Hade Company has an advertisement in this issue to which the attention of our readers is called. It is the announcement of the coming season of the great and summer sale, which will be continued during the month of July, and at which every thing in the store will be sold at sacrifice prices. The Sun has been requested to state that the defects perceptible at the organ rental at the Presbyterian church on Friday evening was not the fault of the organ, but that the irregularities existed in the electric motor. These irregularities have been adjusted, however, and those who attend church today will hear one of the sweetest-toned instruments in the State.

We overheard a gentleman say the other day that politeness is on the wane, that children no longer respect old age and that the small courtesies that cost so little and mean so much are gradually being put aside in this age of buying and selling. Now come in and let us show you with what fine courtesy we can fit you with a pair of Stetson or Walk Over shoes, and how politely we can separate you from the price. Hyde & Tench.

Miller Got Three Months.

Conductor M. L. Gilmer of the Atlantic Coast Line, who is now running between High Springs and Burnett's Lake, has on several occasions proven himself quite shrewd in detective work, and his last venture was as much of a success as the former ones.

Captain Gilmer suspected Will Miller, colored, of stealing from freight cars and cabooses at High Springs, and early Saturday morning arrested him. When arrested the negro had in his possession a tremendous bunch of keys, being apparently prepared to unlock anything from a small satchel to a box car.

Miller was arraigned before Justice Bexley, who gave him a sentence of three months. He was immediately brought to the city by Captain Gilmer, delivered to the Sheriff, and Saturday night Deputy Sheriff Walker took him to Lennon, where he will begin his term.

This was quick work—but that's the way they do it in High Springs.

Wind Wrecks Steamboat.

St. Louis, July 20.—A heavy wind preceding a thunder storm here on Thursday blew the steamboat Tennessee, valued at \$20,000, against an abutment of the Eads bridge, ripping open the bow's side and sinking it. About fifteen roustabouts on board swam ashore and no lives were lost.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff and Falling Hair, with Irritants or oils on which a parasitic germ will prosper, is like sweeping water from the ocean to prevent the tide from rising. You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herbine does this because it is specially made to do that very thing. When the germ is removed, the hair has no chance but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect." Sold by leading druggists. Send for free stamps for sample to The Herbine Co., Detroit, Mich.
